

Product Warning Label

Material Name: Aluminum Dross – Fabrication Plants

Label: #12

WARNING! Keep materials dry. Flammable gases and ammonia are produced on contact with water and/or acids. May present a fire or explosion hazard in poorly ventilated areas. Provide adequate ventilation.

Product may contain hexavalent chromium, lead, and nickel or nickel compounds at greater than 0.1%. Various forms of these materials have been identified as carcinogens or potential carcinogens.

Product may contain lead at greater than 0.1%. Dusts may cause irritation of the eyes, skin, mucous membranes and respiratory tract. Exposure to lead above established limits may cause damage to the central nervous system and brain. Excessive lead exposure may also adversely effect male and female reproductive capability and cause harm to the unborn fetus. Avoid breathing dusts and fumes. Use with adequate ventilation and wear appropriate personal protective equipment. Practice good personal hygiene.

Nickel, many nickel compounds, and hexavalent chromium compounds may cause sensitization and cancer at a variety of sites, most notable the lung.

Dusts, particulate matter, and ammonia may cause eye, skin, mucous membranes, and respiratory irritation. Avoid breathing dusts and vapors. Use with adequate ventilation and wear appropriate personal protective equipment.

First Aid: In case of contact: Flush eyes with water for 15 minutes. Seek medical attention if irritation develops. Seek medical attention if skin irritation develops. If breathing is difficult, remove from area and seek medical attention.

See Kaiser Aluminum Safety Data Sheet KDS-12 for additional information.
